CIMTAN Dinner and Technical Workshop

IMTA products are breaking into the mainstream with [CIMTAN's](#) third Technical Workshop which took place in Saint John in November 2013. Integrated multi-trophic aquaculture involves growing marine organisms together in a working ecosystem.

Thierry Chopin of CIMTAN worked with the Saint John Ale House's executive chef Jess Vergen on an IMTA-themed menu, featuring inspired creations made from local IMTA products including mussels, sugar kelp, Irish moss, and delicious Atlantic salmon.

[Read more about the workshop and the growing popularity of IMTA.](#)

They Call Him Dr. Sturgeon

Dr. Cornel Ceapa holds one of the world's only PhDs in sturgeon biology and fisheries engineering and his company, Acadian Sturgeon and Caviar, is developing a sustainable aquaculture system for Atlantic sturgeon right out of Carters Point, NB.

Popular food blog [EdibleRoadTrip.com](#) talks [here about Dr. Ceapa's technology.](#)

Big Data Congress February 24-25

"The Internet of Things" is emerging as a descriptive term for our communication infrastructure. Meet the man who coined this term as well as a collection of other very impressive speakers at this year's Big Data Congress in Saint John, NB.
