Atlantic Canada BioIndustries Exhibit at the 2015 BIO World Congress on Industrial Biotechnology

BioNB is coordinating the Atlantic Canada delegation to [BIO World Congress](#) and we would like to know if you are interested in taking part.

BIO World Congress on Industrial Biotechnology is taking place July 19-22, 2015 in Montreal.

BIO World Congress is the world's largest industrial biotechnology event for business leaders, investors, and policy makers in biofuels, biobased products, and renewable chemicals. It is only in Canada once every 2 to 3 years and when it is, it attracts a large contingent of international participants. The program includes plenary sessions, breakout sessions, and One-on-One Partnering where you can profile your organization, schedule meetings and search company and investor profiles.

This year we are working to get our companies introduced into the supply chain and have arranged for Atlantic Participants to meet with a group that includes VPs from The Valspar Corporation, DuPont, The Dow Chemical Company (construction, energy, food and ag, medical), & BioAmber Inc.

The following programming is being offered by our team - at no additional cost to Atlantic Canada-based organizations:

- Breakfast with Atlantic Canada, **Tuesday**, July 21, 2015 - an opportunity to meet with international delegates and Canadian trade commissioners from several regions.
- Link Up: Supply Chain Opportunities: A panel discussion and networking reception on **Tuesday** July 21, 2015 at 4:00 p.m. - 7:00 p.m. featuring an **opportunity** to meet VPs from The Valspar Corporation, DuPont, The Dow Chemical Company, & BioAmber Inc.
- Access to the Atlantic Canada exhibit space - Booth # 325 - where you can meet, greet and display promotional materials. The exhibit opens on **Monday** July 20, 2015.
- Support with matchmaking and navigating the conference and associated events.

Please note that you are responsible for your own registration and accommodations in Montreal.

Let us know if you are interested or would like additional information.

For more information and to R.S.V.P. contact BioNB: jodonnell@bionb.org (506.444.2444)
